

# Green Growth in Practice: Lessons from Country Experiences

*2014 Asia LEDS Partnership Workshop*

*Ron Benioff, GGBP Director*

*November 11, 2014*

# Green Growth Best Practice

## Working with a global network

- Launched in October 2012 with support from CDKN, ECF and GGGI
- 75 authors conducting the assessment from all regions
- 20+ partner organizations and 200+ experts in the Expert Network
- 12 Steering Committee organizations
- 4 Implementing partners

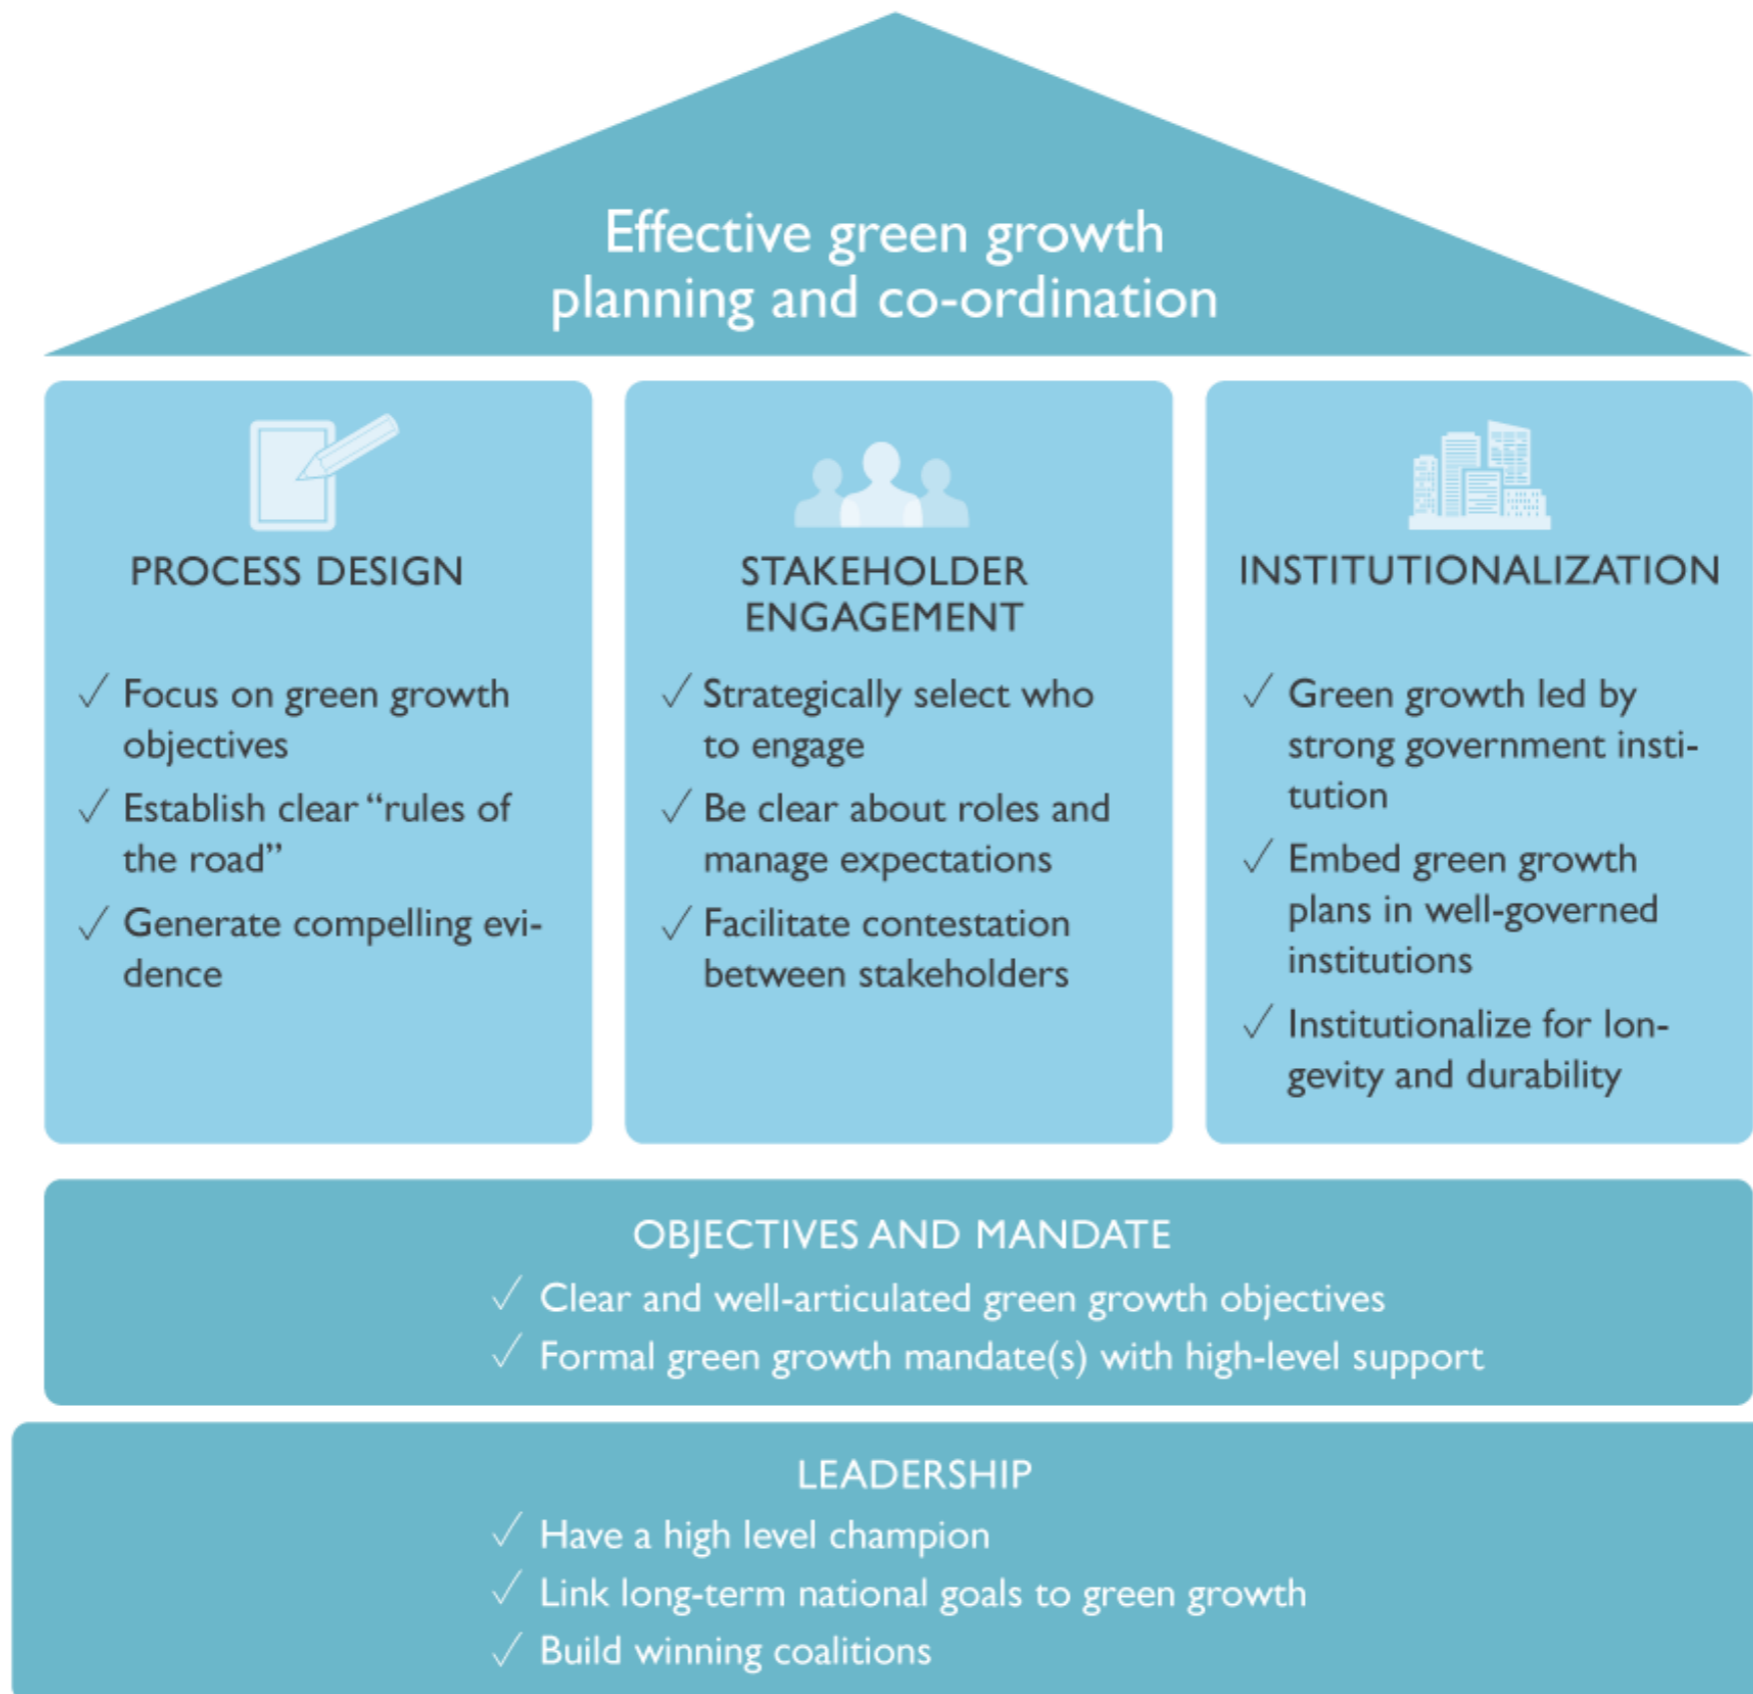

# GGBP topics & integrated green growth approach

# Key conclusions

- **Growing numbers of national and sub-national governments are capturing concrete economic, environmental, and social benefits** from green growth
  - Enhances **resource efficiency** and productivity.
  - Values and achieves sustainable use of **natural systems & ecosystem services**
  - Captures opportunities for **technology, business, and social innovation**
  - Improves **quality of life and social equity**
- **Green growth programs are most effective where they recognize trade-offs and smooth the transition** to a green economy
- **Integrated and robust planning, analysis, implementation, and monitoring are essential.**
- **Broad support for transformative change at adequate speed and scale is required**

# Planning and Co-ordination & Institutional Collaboration

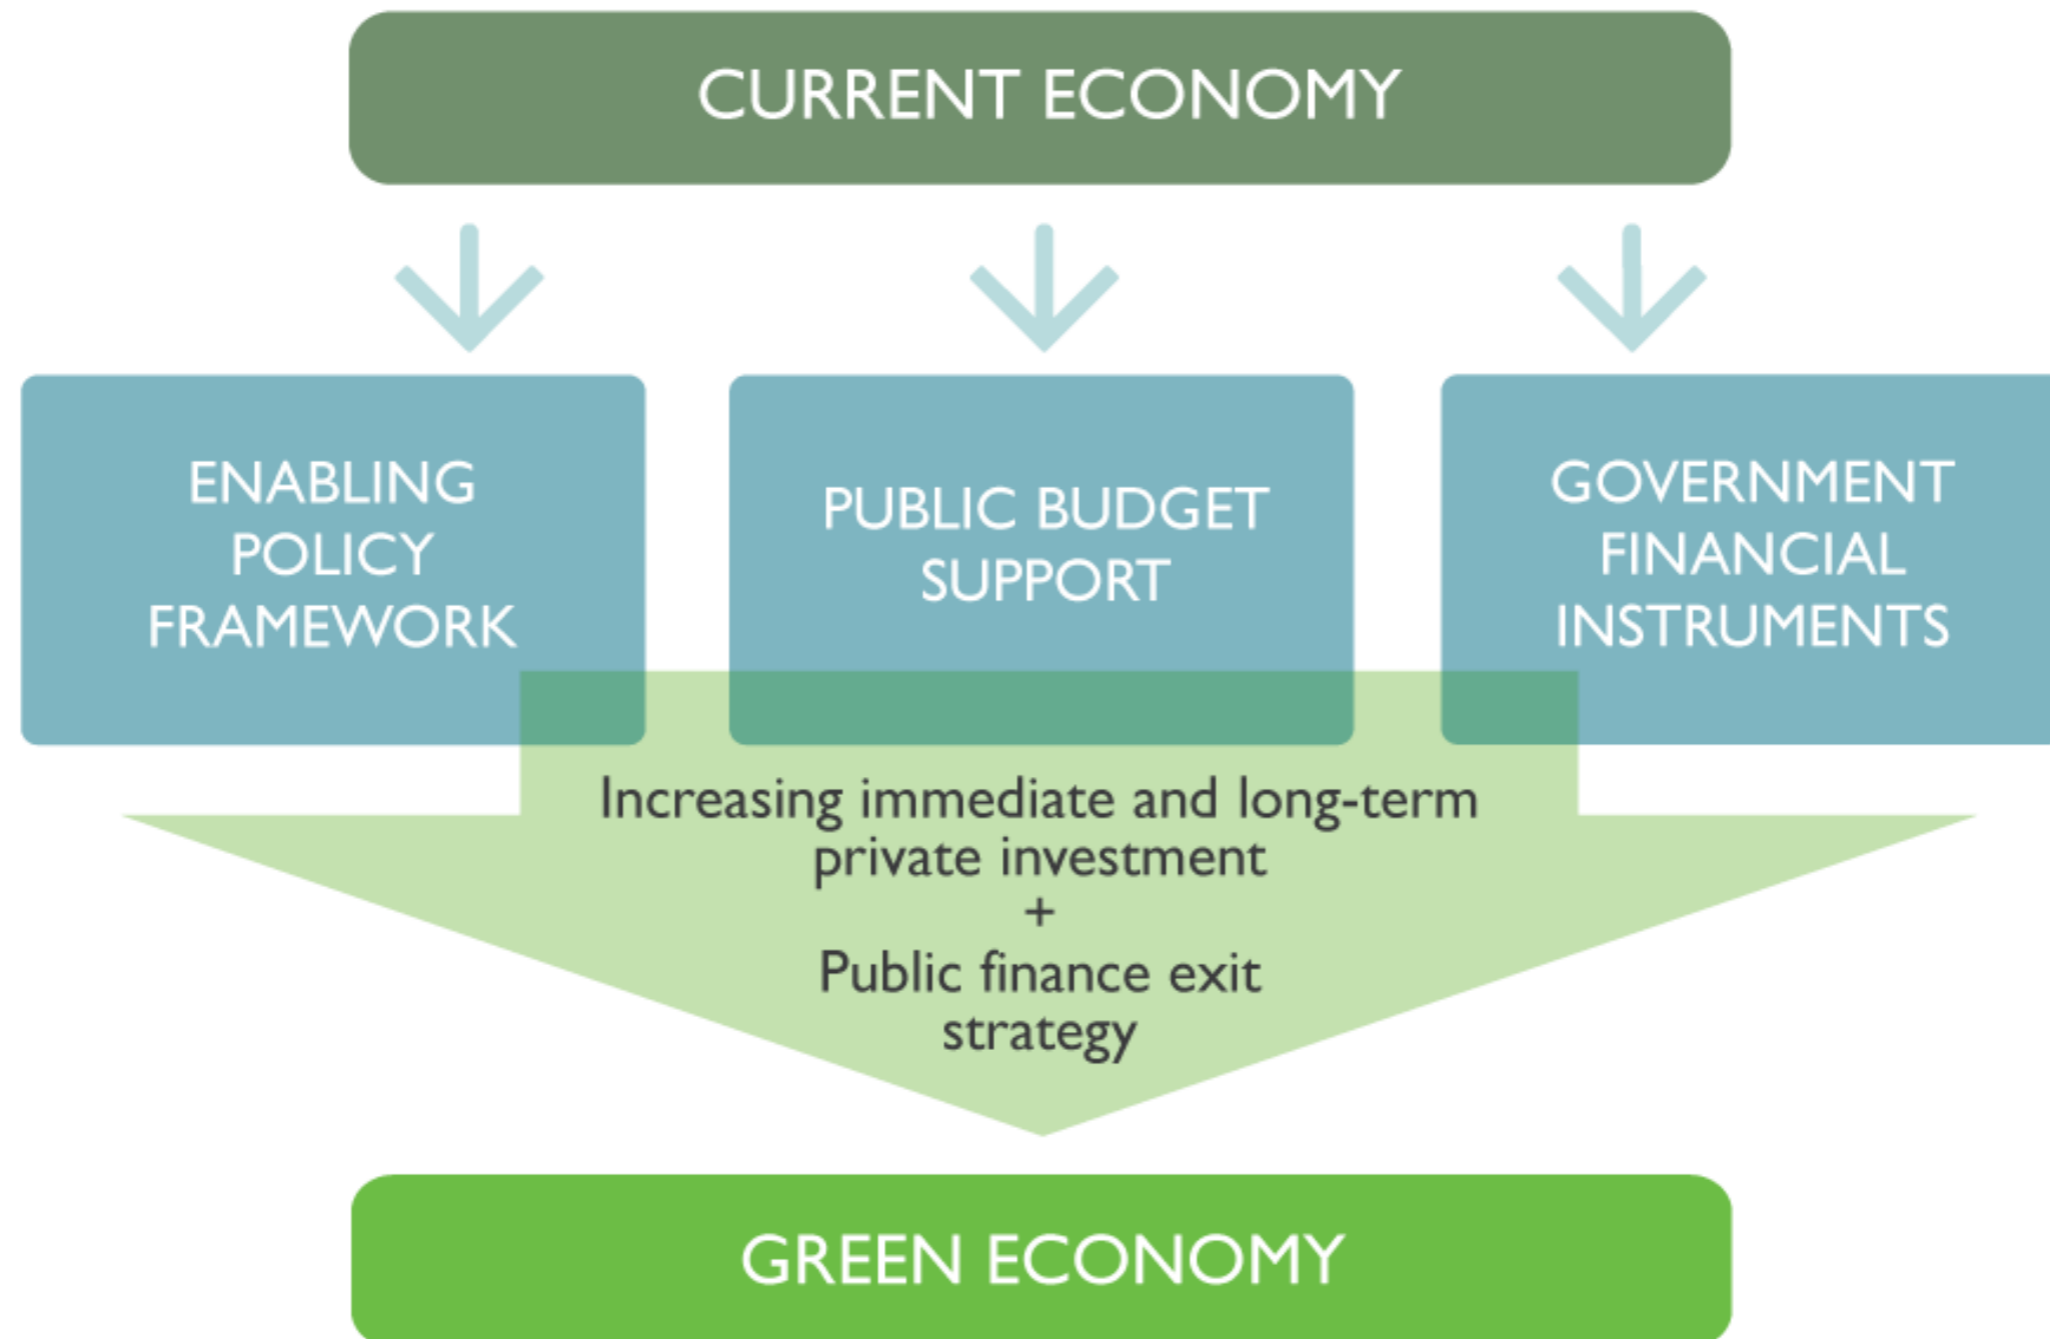

# Policy Design and Implementation

Apply a mix of policy instruments to achieve short term ‘wins’ and support long-term transformation.

# Mobilizing Investment
